The Subject is 'CLIMATE' for all age groups:

Climate affects so many things, weather conditions, the natural world and agriculture. People respond to climate and weather, especially exceptional conditions, in different ways, not just in the clothes they wear. Perhaps you saw or attended a climate change demonstration. As a photographer, the fun is in illustrating the weather conditions or perhaps the experiences of people at the time. Go for it. Black and white or colour. Edited or straight off your camera. Give your creativity a shot in the arm and see what you can create. You may be a winner!
